## Algo-Stop

**High disinfection effect against microorganisms, diffusion and sorption capable.**

**Material Properties** High disinfection effect against microorganisms, diffusion and sorption capable.

**Substrate**

- Not suitable for horizontal surfaces.
- Do not apply to damp or dirty surfaces.

**Consumption** ca. 0,20 l/m<sup>2</sup> per coat

**Technical Data**

- **Type** // Disinfectant solution
- **Consistency** // liquid
- **Density** // ca. 1,0 g/cm<sup>3</sup>

**Application** The substrate must be cleaned manually or mechanically before application. The substrate must be dry before applying Algo Stop. Apply Algo Stop generously and undiluted. Two applications are required for heavily infested surfaces.

Do not rinse off!

Processing  
with a roller or brush.

Clean tools with water immediately after use. Carefully cover neighbouring surfaces. Wash off splashes immediately with plenty of water. Do not use at air and building structure temperatures below +5°C or in direct sunlight, draughts or expected night frosts.

**Surface procurement** After sufficient drying (at least 24 hours at 20°C), coat with mineral or pasty finishing plasters, as well as gypsum-based plasters.

**Packaging**

- 5 l/canister
- 80 canisters/pallet

**Storage** Store the canister tightly closed in a cool and frost-free place.

**Please note** Protect eyes and skin.  
Giscode GD30
